

WINESCHEDULER

LEADING EDGE SCHEDULING,
TRACKING AND POINT OF SALE
SOFTWARE FOR FERMENT-ON-
PREMISE ESTABLISHMENTS.

WINE SCHEDULER

This easy-to-use program automatically tracks all stages of the wine and beer making process with a daily worksheet that lets you know which tasks need to be performed and who performed them - every day.

CREATE A CUSTOMER AGREEMENT IN SECONDS

WineScheduler automatically generates a two-part, one page customer agreement. Part one contains dates needed for racking, stabilizing, filtering and bottling. Part two is given to the customer and contains all information required by law.

NEVER MISS A PRODUCTION TASK AGAIN

WineScheduler automatically creates a daily worksheet that lets you know what needs to be accomplished each day for production and bottling. This worksheet shows every kit in production that needs to be racked, stabilized, filtered, and customized. It also shows bottling appointments, customers who have been emailed a bottling reminder, or who need a reminder call, and customers that have missed bottling appointments.

See your daily worksheets up to 10 days in advance so you can schedule staff according to work load.

Date, time and employee interaction is tracked by user and archived so you can look up information on any kit at any time.

CUSTOMIZE PRODUCTION

WineScheduler allows you to customize pricing, bar codes and production times for each individual kit.

BOTTLING APPOINTMENTS MADE EASY

WineScheduler automatically emails customer appointment reminders and allows customers to rebook on-line. You can customize bottling reminder emails to promote in-store sales

For customers who prefer to be telephoned, WineScheduler creates a daily call list for you.

Our drop down calendar shows all available bottling appointments for multiple stations, which ensures you never double book.

CUSTOMER INFORMATION AT YOUR FINGERTIPS

WineScheduler automatically tracks in-house customer kit purchases. With the click of a mouse you can see a list of purchase dates, type of wine, kit start date and bottling date.

Export your customer database to use in direct marketing campaigns.

EASY REPORTS

WineScheduler tracks totals of in-house kits made daily, monthly and yearly to help with ordering.

You can view reports on tasks completed, filtering, bottling, racking and custom kit steps - up to 10 days in advance.

MANAGE EMPLOYEES

WineScheduler allows you to create an individual login for each employee. When an employee is logged in, WineScheduler tracks the steps taken by each employee as they work through the production process.

PEACE OF MIND

Never lose your company information again. Unlike other systems WineScheduler is on-line and is backed up every day!

SECURITY

WineScheduler is encrypted with the latest in security technology that ensures your information is secure. Access WineScheduler from anywhere to get the latest information on your business.

WE GROW WHEN YOU DO WITH OUR ADD-ON MODULES

In addition to managing the kit making process in your ferment-on-premise operation, Add-on modules in the WineScheduler can help manage your sales and accounting and when your business expands, bottling stations can be added when needed.

POINT OF SALE CASH REGISTER MODULE

The POS module is fully integrated with the WineScheduler so making a sale is even easier!

In the POS you can track sales, invoices, returns, customer purchase history, gift cards, inventory, and much more!

Daily Sales: The Daily Sales Report records every transaction each day and archives every transaction ever made. You can view daily, monthly and yearly sales reports or search for archived reports by date.

Invoices: Review every invoice created in your store. Invoices can be filtered by day, month year or specific date ranges.

Customer History: Review every purchase made by customers in your store.

Rentals: See which rentals are rented out or in stock at a glance. View history of individual rental items.

Sales, Cost & Profit: At a glance, view your sales cost and profit filtered by day, month, year or by date.

Inventory: Know at a glance what your inventory cost is today and what you have in inventory. Track your inventory by last sale, day sales, month sales or life sales. WineScheduler will alert you when specific inventory items are getting low and remind you to re-order.

Cash Drawer Totals: At a glance, view Cash Drawer Totals filtered by today, yesterday or by a custom date. Use this feature to ensure your daily sales match the cash and debit and credit card sales.

Gift Cards: Sell and redeem gift cards. At a glance, sort gift cards by Active Cards, Redeemed Cards or All cards. View Gift card history and see what is outstanding.

BOTTLING STATION MODULE

WineScheduler is automatically loaded with 2 bottling stations. As you business expands, you can add bottling station modules so bottling appointments can be booked simultaneously at different stations.

FREE TRIAL!

We're so sure you will love our software, we're giving it away for FREE for 3 months! After your free trial, it's only \$19.99 per month!

WINE SCHEDULER

WHAT OUR CUSTOMERS SAY...

Since using WineScheduler, my life has become so much easier. I love that it makes a to-do list for everyday and gives me oversight on the work I have in upcoming days and also the number of kits in production. I also love the customer history feature - no more filtering through invoices to see what the client ordered last time. The one-on-one service has been amazing and it's nice to be able to offer feedback on the program and see my ideas implemented. This really have been a lifesaver and I am a loyal customer.

Anneiles, The Wine Cellar and Cheese Shop, Ontario

WineScheduler... what a lifesaver this has been. The system is easy to work with and learn. The automated email reminder for customer appointments, with the option to reschedule on their own, certainly eliminates a lot of calls. Another fantastic feature is the automatic racking and filtering dates. Having a daily work sheet makes it very time efficient. Holding our customer data and history is an extra bonus when repeat customers come in to make more wine.

Sherri, Wine-o-Warehouse, New Brunswick

As a new ferment-on-premise store in PEI, I needed a system that I could depend on to track and schedule my day. With WineScheduler, I can track all my kits brewing, from racking, to filtering to bottling. A very neat feature is the auto-email bottling date/time reminder. There is also a POS module that I helped beta test. Any issues that I found - the team at WineScheduler rectified quickly. It's a well oiled machine now and I consider it an employee at a fraction of the cost! All my inventory is tracked through it as well. Very user friendly. I recommend this program to ANYONE in the ferment-on-premise business. 5 Stars.

Chris, The Cork & Barrel Homebrew Shop, Prince Edward Island
